

Professional Motivation Service

Brendon Homan - Firearm Motivations – SAPS Applications

Since January 2012 I have been taking part in assisting many firearm owners in acquiring firearms licenses, whether it is the third or the tenth license, it doesn't matter; we offer this professional service to you.

Other than assisting clients in applications for firearm licenses and competency certificates, I also offer legal advice on all firearm related queries.

I have taken part in the following applications:

- Self-defence
- Hunting
- Sport Shooting
- Estate firearms
- Firearm licenses for business purposes
- Licenses to trade in firearms
- License renewals
- SAPS Competency applications and renewals
- SAPS Firearm license applications and renewals
- Collector's applications

And if I don't know how to assist a client, I will find a way that is both legal and effective to offer you the best possible service.

All that is required is that a client will fill in a simple questionnaire and registration document and from hereon I will assess the client's situation and supply the client with a personal motivation of a very comprehensive nature.

Please feel free to contact me anytime with any firearm related matter and quotation regarding your applications.
